

## ACCESSORIES: LITTLE BAG FOR MONEY, ETC.

### MATERIALS REQUIRED

Old jeans, old zippers, scissors, measuring tape, suitable thread, a sewing machine, fixing pins, a flat iron and an ironing board.

### DEGREE OF DIFFICULTY

High.

### APPROXIMATE TIME REQUIRED

4-6 hours.

### LEARNING GOALS

Learn how to use a sewing machine, how to measure and cut different types of material and how to sew zippers

### STEP-BY-STEP INSTRUCTIONS

1. First of all, you have to measure the trousers pocket and add 2 cm on each side. Add another square of the same size, so you have one huge square. Now you have to cut it.

2. For the inner part, cut another piece of material in the same size and choose a suitable zipper.

3. Now you have take the squares, fold them, fix them with fixing pins, place the zipper on the upper edges and use some fixing pins to fix it as well.

4. Use a zipper foot to sew the zipper at its foreseen place.

5. Use a flat iron to iron the material close to the zipper.

6. Place the squares with the right side down and the zipper in the middle in front of you.

7. Fold the squares to the zipper and fix them with fixing pins.

8. The zipper is now ready to be sewed from the other side.

9. Take the square with the zipper in the middle and the left side outward and fix the edges with fixing pins. The zipper should be left a little bit open. While sewing the edges leave a space of ca. 5 cm to be able to turn the inside out later on.

10. Turn the inside out and sew the 5 cm left over previously with the sewing machine. Your little bag is ready to be used.

#### TIPS

The degree of difficulty and the amount of time calculated might vary depending on the target group and the amount of practise and experience.
